Picaso™ Ink

High Quality Printing, Professional Results

Using HP ink cartridge technology, Secap Picaso™ ink provides the "Ink Solution" for printing on a wide variety of over coated substrates including aqueous and over coated material. Secap Picaso™ ink is formulated to enable thermal inkjet printers configured with a dryer to print on aqueous and over coated materials quickly and easily.

Technical Specifications

Picaso™ Ink

P/N:	IQ2392
Ink Type:	Mild Solvent Ink
Resolution:	600 dpi
Nozzle Count:	300
Print Swath:	.5
Maximum Firing Frequency:	12kHz
Average Drop Volume:	29 pl
Average Delivered Ink (ccs):	40ccs
Number of Electrical Interconnect Pads:	52
Operating Conditions:	10 - 40 degrees celsius, 10 - 80% RH
Shipping/Storage Conditions:	(in original packaging only) 10-30 degrees celsius, 5-80% RH Altitude: 0-5000 meters Orientation: Nozzle up or side

Drying: The Picaso™ ink requires a 4000 Watt Dryer for proper drying on aqueous and most over coated materials.

(Specifications subject to change without notice.)

Benefits:

- **Easy Retrofit** - Packaged in the common HP-45A cartridge, quickly installs into existing equipment eliminating the need to change print technology.
- **Flexible** - Prints on wide variety of media including aqueous and over coated material.
- **High Quality** - Delivers sharp, rich, black text on over coated material in a single pass, without transfer and without sacrificing speed.
- **Professional** - Thermal inkjet can deliver a deeper black than other inkjet technologies, resolutions up to 600 x 600 dpi
- **Cost effective** - requires no warm-up cycling and no downtime.
- **Simple to use** - Minimal operator training required to operate or maintain thermal inkjet printer. When it's time to replace a print cartridge, replace only the one that is needed.
- **Reliable** - Thermal inkjet is less sensitive to air bubbles, than continuous ink jet or other drop on demand technologies.
- **Lower cost to operate** - Picaso™ ink provides a low cost solution for addressing on aqueous and over coated materials.
