

## Increase Productivity and Reduce Ink Costs

### **Secap Ink Management System** **High Capacity Ink Solution**

The Secap Ink Management System is a convenient and economical solution for extending the ink capacity on today's high production inkjet printers. Profitability of job runs is improved by lowering ink costs and reducing operator intervention.

- Delivers lower per piece consumable cost
- Increases throughput by reducing the frequency of cartridge changes
- Audio/Visual indicator for low ink levels
- Designed to hold two HP 350ml bulk ink cartridges
- Choice of inks for handling different substrates
- Simple install. No special training required.

## Increase Capacity For More Efficient Operations

The Secap Ink Management System is an ideal solution for increasing print production while reducing operator intervention during long production runs. This system can feed up to eight print heads simultaneously, and automatically switch between cartridges for uninterrupted production. Communication of the ink level and ink status is done through an intuitive control interface. The Ink Management System from Secap is simple to operate. It can be retrofitted to existing equipment providing users with a flexible system that delivers substantial ink cost savings.

### Technical Specifications Ink Management System

- **Printheads Supported**  
Up to 8
- **Bulk Ink Cartridge:**  
350ml
- **Ink Types:**  
HP Versatile Black Ink  
Secap Picaso™ Ink  
(Note: Cannot mix inks in same configuration.)
- **Operator Interface:**  
On/off switch  
Control box indicates cartridges in use  
Light and audio indicators for ink cartridge/system status  
Manual button for cartridge selection
- **Physical Characteristics:**  
Dimensions: 6"W x 12"D x 30"H  
(hardware/mounting bracket included)  
Weight: 14 lbs.  
Power: 115 VAC
- **Included in standard package:**  
Control box with electrical connections  
Regulators: 1-8 depending on configuration  
Light bar  
Hardware and mounting brackets

(Specifications subject to change without notice.)

#### Ink Management System delivers efficiency and lower ink costs

- Capable of feeding up to 8 printheads simultaneously
- Audio/visual communication informs operator of ink/system status
- Mounts easily to the Jet 1 and other existing mail table bases
- Built-in ink monitor
- Proven HP inkjet cartridge technology

Jet 1 system shown utilizing the Ink Management System.

Adding the benefits of the Secap Ink Management System to the highly-productive, one person operated Jet 1 system makes this combination the ultimate solution in productivity and cost savings.
